

6-8 JUNE '22

SEPSIS

27TH INFECTION AND SEPSIS SYMPOSIUM

SSIS

PROGRAM

PROGRAM

08h30 - 09h00	CONFERENCE: IS SEPSIS AN IMMUNOLOGICAL DISEASE. WHERE TO GO NEXT? - Didier Payen Moderator: Paulo Mergulhão	
09h00 - 10h00	SEVERE INFECTIONS. WHAT IS NEW IN 2022? Moderators: João G. Pereira Liliana Dias - Bacterial Infections. - Fungal disease. - Viral disease.	Rafael Zaragoza Tiago Marques Alex Soriano
10h00 - 10h15	OPENING CEREMONY	
10h15 - 10h50	ROUND TABLE: SEPSIS IS NOT A DISEASE! Moderators: Márcio Borges-Sá Susana Fernandes - Pro - Pedro Póvoa / Con - Paulo Mergulhão	
10h50 - 11h20	POSTERS - COFFEE-BREAKS	
11h20 - 12h50	ROUND TABLE: THE CRASHING SEPTIC PATIENT. Moderators: Carlos Pereira André Gomes - How do I support acute respiratory failure? - When do I start RRT? Should I use fluids and/or diuretics? - When do I start vasopressors and how do I choose them?	Nuno Príncipe Sérgio Gaião Ricard Ferrer
12h50 - 13h30	SATELLITE SYMPOSIUM PFIZER COVID-19: FROM EPIDEMIOLOGY TO THERAPEUTIC TARGETS - SARS-CoV-2 infection: epidemiological evolution and variants of concern - COVID-19: therapeutic management in the post vaccination era	André Peralta-Santos Alex Soriano
13h30 - 14h30	LUNCH	
14h30 - 15h00	CONFERENCE: FEATURES OF A COMMON DISEASE: EPIDEMIOLOGY OF PNEUMONIA IN PORTUGAL - João Gonçalves Pereira Moderator: João Vilaça	
15h00 - 16h10	ROUND TABLE: BIOMARKERS. Moderators: João Gonçalves Pereira Joana Fernandes - Is there a role for biomarker combination? - New biomarkers for detecting and managing sepsis - a step towards personalized care? - Is point of care biomarkers a step forward to improve sepsis management?	Pedro Póvoa Susana Fernandes Angelo Giacomucci
16h10 - 16h40	CONFERENCE: BRINGING SEPSIS PHENOTYPES TO THE BEDSIDE - Ignacio Martin-Loeches Moderator: Nuno Príncipe	
16h40 - 17h10	POSTERS - COFFEE-BREAKS	
17h10 - 18h30	ROUND TABLE: AI IS COMING! ... DEAL WITH IT Moderators: Paulo Mergulhão Rafael Zaragoza - Can AI accurately identify different phenotypes? - AI for early detection of sepsis and optimization of antibiotic treatment - Ethical dilemma - Can AI accurately predict mortality?	Márcio Borges-Sá Tariq Dam Jan De Waele

08h30 - 09h40	<p>ROUND TABLE: ANTIBIOTIC STEWARDSHIP. Moderators: Carlos Alves Lílíana Dias</p> <p>- What should we aim for? DDD? Preservation of some classes? Heterogeneity? - Is all about communication: The difficult to approach doctor. - How antibiotics harm patients.</p> <p>Márcio Borges-Sá Ana Lebre Dulce Pascoalinho</p>
09h40 - 10h50	<p>ROUND TABLE: DIFFICULT-TO-TREAT MOS. Moderators: Cláudia Nazareth Carla Mimoso</p> <p>- Epidemiology of Difficult to treat Ms. - New resistance mechanisms against new antibiotics.</p> <p>Cristina Nunes Rafael Canton</p>
10h50 - 11h20	POSTERS – COFFEE-BREAKS
11h20 - 12h30	<p>ROUND TABLE: HOW DO I SEE SEPSIS THERAPY IN 2030 YEARS: Moderators: Filipe Froes Márcio Borges-Sá</p> <p>- Anti-infective Therapy. - Organ support therapy. - ICU design.</p> <p>Ignacio Martin Loeches Daniel deBacker Ricard Ferrer</p>
12h30 - 13h30	<p>SATELLITE SYMPOSIUM MSD NOSOCOMIAL PNEUMONIA - FIGHT IT AT THE SOURCE!</p> <p>- Opening - HAP/VAP National Scenario - Where are we now? - MDR microorganisms a therapeutic challenge in Nosocomial Pneumonia - Where are we going?</p> <p>Nuno Príncipe Filipe Froes Ricard Ferrer</p>
13h30 - 14h30	LUNCH
14h30 - 15h00	<p>CONFERENCE: SHORTENING THE JUMP FROM BENCH TO BEDSIDE. PUTTING CLINICAL AND BASIC INVESTIGATION IN SYNC. - Maria Manuela Mota Moderator: Susana Fernandes</p>
15h00 - 16h10	<p>ROUND TABLE: NON-ANTIBIOTIC STRATEGIES FOR MANAGEMENT OF SEPSIS AND SEVERE INFECTIONS. Moderators: Cristina Nunes Rui Veiga</p> <p>- Monoclonal antibodies against main pathogens. - Extracorporeal removal of microorganisms / Toxins. - Is there a role for phage therapy?</p> <p>Ricard Ferrer Xose Fernandez João João Mendes</p>
16h10 - 16h40	POSTERS – COFFEE-BREAKS
16h40 - 17h40	<p>ROUND TABLE: UPCOMING OPTIONS FOR THE MANAGEMENT OF MDR GRAM NEGATIVE INFECTION Moderators: João João Mendes Dulce Pascoalinho</p> <p>- New BL/BLI combinations. - Eravacycline. - Putting it all together in antibiotic stewardship.</p> <p>Carlos Alves David Livermore Sérgio Paulo</p>

08h30 - 09h25	<p>EXTRACORPOREAL SUPPORT OF SEPSIS Moderators: Philip Fortuna André Gomes</p> <p>- Role of ECMO in refractory septic shock - Optimizing antibiotic dose in CRRT and ECMO.</p> <p>Roberto Roncon Jan De Waele</p>
09h25 - 11h00	<p>UNMET NEEDS IN SEPSIS Moderators: Carla Mimoso Hugo Cruz</p> <p>- Rapid microbiological tests for sepsis. An update. - Assessment and treatment of the microcirculation - Biofilms - Immunological Therapy for Sepsis; are we there yet?</p> <p>Llanos Salar Vidal Daniel de Backer Hans-Curt Flemming Didier Payen</p>
11h00 - 11h20	COFFEE BREAK
11h20 - 11h35	BEST POSTER AWARD
11h35 - 12h25	<p>INNOVATIVE TECHNOLOGIES IN THE ICU Moderators: Filipe Gonzalez Nuno Príncipe</p> <p>- Continuous hemodynamic monitoring. - Wasting money or improving care?</p> <p>Philip Fortuna Rui Moreno</p>
12h25 - 13h45	<p>OPTIMAL MANAGEMENT OF ANTIBIOTIC THERAPY IN THE ICU Moderators: Cristina Nunes Catarina Conceição</p> <p>- External antibiotic stewardship in the ICU is good for your patient - Managing dose in the ICU. - The holy grail: Partnership between stewardship and sepsis team.</p> <p>Carlos Palos João G. Pereira Rafael Zaragoza</p>
13h45	<p>THE FUTURE OF INFECTION AND SEPSIS Márcio Borges-Sá João Gonçalves</p>

- A 2 H ANTIMICROBIAL SUSCEPTIBILITY ASSAY DIRECTLY FROM POSITIVE BLOOD CULTURES
- A ENDOCARDITE INFECCIOSA, UM DESAFIO DIAGNÓSTICO - A PROPÓSITO DE DOIS CASOS CLÍNICOS
- A LOW PREVALENCE OF SARS-COV-2 INFECTION BUT A HIGH PREVALENCE OF OTHER RESPIRATORY INFECTIONS IN CHILDREN UNTIL 3 YEARS OLD
- A RAPID COLISTIN MIC DETERMINATION DIRECTLY FROM COLONIES, POSITIVE BLOOD CULTURES OR URINES
- A RARE INFECTIOUS CAUSE OF ENDOCARDITIS
- ANTIMICROBIAL RESISTANCE PATTERN OF INVASIVE GRAM-NEGATIVE BACILLI
- BACTERIEMIA A BACTERIOIDES TETHATAIOTAOMICRON COMO PRIMEIRA APRESENTAÇÃO DE NEOPLASIA UTERINA
- CHOQUE SÉTICO MULTIFATORIAL - QUANDO O DIAGNÓSTICO É UM DESAFIO
- COMPARATIVE ANALYSIS OF BACTERIAL CO-INFECTION IN CRITICALLY ILL PATIENTS WITH AND WITHOUT SARS-COV-2 INFECTION - RESULTS OF THE FIRST YEAR OF THE PANDEMIC
- COMPARING PROCALCITONIN PRODUCTION IN GRAM-NEGATIVE AND GRAM-POSITIVE INFECTIONS
- DOENÇA PNEUMOCÓCICA INVASIVA - DESCRIÇÃO DE 3 CASOS CLÍNICOS ADMITIDOS EM UCI
- EPIDEMIOLOGY OF NON-COVID VIRAL RESPIRATORY INFECTIONS IN CHILDREN DURING THE COVID-19 PANDEMIC
- ESTUDO COMPARATIVO ENTRE UM MÉTODO RÁPIDO E O MÉTODO CONVENCIONAL NA IDENTIFICAÇÃO E TESTE DE SUSCETIBILIDADE AOS ANTIMICROBIANOS A PARTIR DE HEMOCULTURAS POSITIVAS
- FASCÍTE NECROTIZANTE - UM CASO DIFERENTE
- GESTÃO DA INFEÇÃO NUM ECMO PROLONGADO COMO PONTE PARA TRANSPLANTE - UM CASO DE SUCESSO
- HOSPITAL-ACQUIRED PNEUMONIA. A POSITION STATEMENT
- IDENTIFICAÇÃO DE VIA VERDE DE SEPSIS NA ULSAM
- IMPACTO DAS INFEÇÕES DA VIA BILIAR NOS OUTCOMES DE DOENTES COM CANCRO DIGESTIVO SOB TERAPÊUTICA SISTÊMICA - A EXPERIÊNCIA DE UM CENTRO
- INSUFICIÊNCIA CARDÍACA - UMA ETIOLOGIA INCOMUM
- LONG TERM OUTCOMES OF PNEUMOCOCCAL COMMUNITY ACQUIRED PNEUMONIA
- MENINGITE POR STREPTOCOCCUS SUIIS EM DOENTE COVID19
- MÉTODO DE DIAGNÓSTICO RÁPIDO: TRÊS ANOS DE EXPERIÊNCIA HOSPITALAR COM O ACCELERATE PHENO® SYSTEM
- MSSA: DE ONDE E PARA ONDE?
- O PROCESSO ASSISTENCIAL SÉPSIS NO PRÉ-HOSPITALAR EM PORTUGAL - UMA ANÁLISE DE 2021
- PERITONITE EM CUIDADOS INTENSIVOS - A EXPERIÊNCIA DE 2 ANOS NUMA UNIDADE DE CUIDADOS INTENSIVOS POLIVALENTE
- QUANDO A TUMEFACÇÃO CERVICAL ESCONDE A MEDIASTINITE
- QUANDO O BAÇO NOS DÁ PROBLEMAS!
- RELATION BETWEEN AGE AND ANTIMICROBIAL RESISTANCE OF E. COLI INFECTIONS IN URINARY AND BLOOD
- RISE OF CARBAPENEMASE-PRODUCING ENTEROBACTERIALES IN A HOSPITAL, 2016-2022
- RUMINOCOCCUS GNAVUS BACTEREMIA IN A PATIENT WITH PROSTATIC ABSCESSSES: FIRST CASE REPORT IN PORTUGAL
- SALMONELLA ENTERITIDIS: UM REFÚGIO BILIAR
- THE IMPACT OF LUNG SEQUELAE IN LONG-TERM QUALITY-OF-LIFE OUTCOMES AFTER CRITICAL COVID-19
- THINK FUNGUS?
- UM CASO DE TOXOPLASMOSE CEREBRAL
- UM CASO RARO DE BACTERIEMIA POR CAMPYLOBACTER
- UMA CONTRAINDICAÇÃO QUE FEZ A DIFERENÇA
- WE'VE JUST OPENED PANDORA'S BOX - ABOUT THREE PANDORAEA APISTA CLINICAL CASES

ORGANIZING COMMITTEE

GISID-Grupo de Investigação e Desenvolvimento em Infecção e Sepsis - Portugal and
Fundación Código Sepsis - Espanha

The Organizing Committee wishes to thank all the sponsors of this symposium:
